Install on macOS Important: Before you start, check that your operating system is compatible with Google Drive for desktop. Download Google Drive for desktop: DOWNLOAD FOR MAC Open GoogleDrive.dmg. Follow the on-screen instructions. Tip: If you use a work or school account, you might not be able to use Google Drive for desktop. Your organization must install it for you. If you have questions, ask your administrator. On Google Drive for desktop, at the top right, in the menu bar, you can find the Google Drive for desktop menu . To make it easier to find Google Drive for desktop when it's closed, you can pin it. To add Google Drive to your Dock: In the Applications folder, drag the Google Drive app to the left side of the recently used apps separator line. Get started with Drive for Desktop For this same video with audio descriptions, go to Get started with Google Drive for Desktop. When you open Google Drive for desktop for the first time, or after your account has been disconnected, to log in: On your computer, open Google Drive for desktop . Click Get started Sign in. Sign in to the Google Account you want to use with Google Drive for desktop. Tip: You can use up to 4 accounts at one time with Google Drive for desktop. Learn how to use multiple accounts at the same time. Use multiple accounts at the same time You can use up to 4 accounts at one time with Google Drive for desktop. Add an account On your computer, click the Google Drive for desktop menu . In the top right-hand corner, click your profile picture + Add account. Sign in through your browser. Restart Google Drive for desktop. Disconnect an account Important: If a streaming account is disconnected, any offline files are removed. On your computer, click the Google Drive for desktop menu . Click your profile picture Disconnect account. In the pop-up window, click OK. Check sync status: On your homepage, the new "Sync status" tile displays your recently synced files and current sync activity. It replaces the previous "Activity" view. Find detailed sync activity: A comprehensive list of all recent sync activity. Get notifications: Important updates, like time-sensitive sync errors, show in your notifications. Use enhanced search:Search directly within Google Drive for desktop to find all files from your streamed Google Drive location, unlike Windows Search or macOS Spotlight. Tip:For a quick search, use a search hotkey combination. The default values for the search hotkey are: Windows: Ctrl + Alt + g. macOS: [Command icon] + [Accent icon] + g. You can set up your hotkey in advanced settings. Have simple sync control: You can pause or resume the sync process of Google Drive for desktop at any time. Add new folders to sync: Sync more folders on your computer with Google Drive. Access your synced files: Once your files are synced, you can access them from two main places: Through the Drive for desktop app: Click the folder icon to browse all your Drive files. You can also use the search bar in the app to find a specific file. Directly on your computer: Open File Explorer (on Windows) or Finder (on macOS) and navigate to the Google Drive folder. Here you will find "My Drive," "Shared drives," and other synced folders. To open a file, double-click it. Files in Google Docs, Sheets, and Slides open in your web browser, while other files open in their default desktop applications. Tip: If your Google Drive and "My Drive" folder are empty, you wont find the "Shared drives" or "Other computers" views. Share your feedback To share your feedback and report any issues: On your computer, click the Google Drive for desktop menu . At the top right, click Settings Send feedback.
