Nintendo Switch2 supports both regular game cards and game-key cards. Some games will use game-key cards while others will continue using regular game cards. Game-key cards are different from regular game cards, because they don't contain the full game data. Instead, the game-key card is your "key" to downloading the full game to your system via the internet. After its downloaded, you can play the game by inserting the game-key card into your system and starting it up like a standard physical game card. Here's what game-key card packaging looks like. To download the game, an internet connection and enough free space in your Nintendo Switch2 system memory or microSD Express card are required. How it works Step 1: Insert the game-key card into the system. Step 2: Download the game. The game itself isn't included on the game-key card, so you'll have to download it before you can play. When you insert the game-key card, further instructions will be displayed on the HOME Menu. Please follow the instructions to download the game. Please note: To download the game, you must have enough free space in your Nintendo Switch2 system memory or microSD Express card. The amount of free space required is indicated on the game-key card packaging. Step 3: Play the game. Once the game is downloaded, you're ready to play! An internet connection is only required when you launch the game for the first time. After this, the game can be started even without an internet connection. However, like regular physical software, the game-key card must be inserted into the system in order to play the game. Updated Depending on the type of software, purchases can be restricted through the Nintendo Account and/or Nintendo Network ID (NNID) that is linked to the child's account. Scroll down to highlight Users Usuarios Utilisateurs Usuiros , then select Add User... 68462 Nintendo Switch 2, Nintendo Switch, Nintendo Switch Lite, Nintendo Switch - OLED Model Information about microSD and microSD Express Cards and how they work with the Nintendo Switch and Nintendo Switch2 systems. Nintendo Switch2 is only compatible with microSD Express cards. microSD Express cards are faster at reading and writing data compared to microSD cards, which are used with Nintendo Switch.Important: Inserting a microSD card that has been previously used on a Nintendo Switch console into a Nintendo Switch2 console will not allow you to save or load digital games or save data. *It is possible to load Nintendo Switch screenshots and videos that you have captured on a microSD card. **Please note: a system update via the internet is required the first time you use a microSD Express card. microSD Express cards with a capacity of up to 2TB are supported. **On a Nintendo Switch console, the data reading and writing speed for a microSD Express card will be equivalent to that of a microSD card. Licensed microSD Express cards for Nintendo Switch2 will be available for purchase on the My Nintendo Store. 2025Nintendo SwitchNintendo Switch 2Nintendo Switch 2 Nintendo Switch 2Nintendo Switch Nintendo Switch 2 Nintendo Switch 2202542Nintendo Direct: Nintendo Switch 2 2025.4.2 Nintendo Switch 2Nintendo Switch 2 Nintendo Switch 2 2025446 202541113 202542527 202542527 2025446 202541113 202542527 202542527 20255911 20255911 202542627 202553161 18891983Family ComputerNintendo Switch8500058 Nintendo Account Nintendo Account (Nintendo Account Nintendo Switch 12Nintendo SwitchNintendo Account Nintendo AccountParental Controls Nintendo AccountParental Controls Parental Controls Nintendo Account Nintendo eShop URL / Nintendo Switch 2, Nintendo Switch, Nintendo Switch Lite, Nintendo Switch - OLED Model Information about using virtual game cards on your Nintendo Switch2 or Nintendo Switch. The digital games and DLC you purchase through Nintendo eShop are treated as virtual game cards on your console. This allows you to digitally load and eject your virtual game cards like you would a physical game cardfor example, if you own a Nintendo Switch2 and a Nintendo Switch console, you can eject a virtual game card from one console and then load it on the second console. When a virtual game card for a game or DLC is loaded onto a console, it can be played even if the console is not connected to the internet, and other users who are on that console can also play the game or DLC. You can also lend your games to your Nintendo Account family group members, so they can check out the games for themselves. Your virtual game cards are accessed through Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Once linked together, you can freely swap your virtual game cards back and forth between up to two consoles as long as they are powered on (or in sleep mode) and have an active internet connection. All other users on your consoles that can load virtual game cards can also play your games or DLC if they are loaded to the console. How to prepare a console to use virtual game cards If you have not previously loaded virtual game cards on any of your consoles, choose a console you would like to use and select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu to start using your virtual game cards. How to prepare a second console to use virtual game cards You can have up to two Nintendo Switch2 or Nintendo Switch consoles that can load virtual game cards associated with your Nintendo Account, in any combination. If you would like to load your virtual game cards on a second console, you will first need to link the consolesyou only need to perform this linking process once, unless you have more than two consoles and want to change which can load virtual game cards. Follow these steps to link two of your consoles so they can both load your virtual game cards: Bring the console that can already load your virtual game cards and the second console where you want to load virtual game cards close to each other. Connect both consoles to the internet. Link your Nintendo Account to a user on the second console, if you have not already done so. On the second console: Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select one of your virtual game cards that you would like to load on this console. Select Load on This System Cargar en esta consola Cargar sur cette consola Carregar neste consola . Select Next Seguir Suite Proximo . Bring the console that can already load virtual game cards close to this console and select Systems Are Close Enough Las consolas ya estn cerca. Les consoles sont suffisamment proches Os consoles esto prximos o suficiente. On the console that can already load virtual game cards: Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. A message about linking to another console will begin. Select Link Vincular Synchroniser Vincular. The linking process will begin. Select OK Aceptar OK OK when it is complete. If prompted, select Load on This System Cargar en esta consola Cargar sur cette consola Carregar neste consola to load the virtual game card you selected earlier on the newly linked console. These two consoles are now linked and you can load your virtual game cards on both consoles, even if they are not close to each other. Note that game save data is associated with your Nintendo Account and the console you play on. If you want to use the same save data on both consoles, you can transfer the data or use the Save Data Cloud Backup feature if you have a Nintendo Switch Online membership. How to change which consoles can load virtual game cards You can load the virtual game cards associated with your Nintendo Account on up to two consoles. If you have more than two consoles or are replacing a console with a new one, you can change which consoles can load your virtual game cards. To change which two consoles can load your virtual game cards, follow these steps: On the new console: Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select a virtual game card you would like to load on the new console. Select Load on This System Cargar en esta consola Cargar sur cette consola Carregar neste consola . Select Next Seguir Suite Proximo . A message will appear indicating that you already have two linked consoles that can load virtual game cards. Select Next Seguir Suite Proximo . Review the information about your two consoles that are currently linked, and select Unlink Desvincular Dsynchroniser Desvincular next to the one you want to unlink. Select Unlink Desvincular Dsynchroniser Desvincular again. Select OK Aceptar OK OK. Make sure the consoles that will be linked are close to each other, then select Systems Are Close Enough Las consolas ya estn cerca. Les consoles sont suffisamment proches Os consoles esto prximos o suficiente. On the console that can already load virtual game cards: Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. A message about linking to another console will appear. Select Link Vincular Synchroniser Vincular. The linking process will begin. Select OK Aceptar OK OK when it is complete. If prompted, select Load on This System Cargar en esta consola Cargar sur cette consola Carregar neste consola to load the virtual game card on the newly linked console. To play your virtual game cards, you need to load them on one of your two consoles that can load virtual game cards. You can freely load and eject them between your two consoles, just like physical games, and you can load as many of them as you want on either console as long as you have enough space to download themyou do not need to eject a virtual game card to load a different one on the same console. How to load a virtual game card on a console Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select the game you want to load from the list of your virtual game cards. How to load multiple virtual game cards at once When in the virtual game card menu, press X to open the Quick Load Acciones rpidas Chargement rapide Seleo mltipla menu. Select all of the virtual game cards you want to load. Select Load Cargar Charger Carregar (or press the + button). Select OK Aceptar OK OK. If the games were not previously downloaded to this console, the icons for them will appear on the HOME Menu and they will begin downloading automatically. Select Load on This System Cargar en esta consola Cargar sur cette consola Carregar neste consola . The icon for the game will appear on the HOME Menuall users on the console where the game is loaded can now play the game. If the game was not previously downloaded to the console where you loaded it, the game will begin downloading automatically from Nintendo eShop if the console is powered on and connected to the internet. How to manage your virtual game cards without access to a console Instead of swapping your virtual game cards between your consoles using the consoles themselves, you can sign in to your Nintendo Account on the Nintendo Account portal and load and eject your virtual game cards from your two consoles that can load virtual game cards. Visit the Nintendo Account portal. Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais . Select the game you would like to manage. Select Load on System Cargar en esta consola Cargar sur cette consola Carregar no consola (or Load on Other System Cargar en otra consola Cargar sur une autre consola Carregar em outro consola , if the game is already loaded on a console). Select the console you would like to load the game to, then select Load Cargar Charger Carregar . Message: Couldn't load because target system isn't connected Virtual game cards can only be loaded on a console if that console is connected to the internet and powered on or in sleep mode. Make sure the console is on and connected to the internet, then try to load the virtual game card onto it again. Select OK Aceptar OK OK . How to eject a virtual game card from a console Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select the game you want to eject from the list of your virtual game cards. Select Options Opciones Options Opes. Select Eject from This System Expulsar de esta consola Ejectar deste consola. Select OK Aceptar OK OK twice. Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Press X to open the Quick Load Acciones rpidas Chargement rapide Seleo mltipla menu. Press X again. Select Eject All Expulsar todas Tout ejecter Ejectar todos to eject all currently loaded virtual game cards. Select OK Aceptar OK OK. How to hide or unhide virtual game cards Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select the game or DLC you want to hide. Select Options Opciones Options Opes. Select Hide Ocultar Masquer Ocultar twice to hide the game from the list of your virtual game cards. Note that you can still perform various actions with hidden virtual game cards, like loading them in order to play or lending them to family members. To do so, follow the steps below to view your hidden virtual game cards. Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Scroll down and select Can't Find Software? No encuentro ciertos programas Logiciels introuvables? No consegue encontrar un software especfico?. Select View Hidden Virtual Game Cards Ver tarjetas de juego virtuales ocultas Voir les cartes de jeu virtuelles masques Ver cartes de jogo virtuais ocultos. If prompted, sign in to your Nintendo Account. The list of your hidden virtual game cards will appear. They can be used from this list just as if they were not hidden. Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Scroll down and select Can't Find Software? No encuentro ciertos programas Logiciels introuvables? No consegue encontrar un software especfico?. Select View Hidden Virtual Game Cards Ver tarjetas de juego virtuales ocultas Voir les cartes de jeu virtuelles masques Ver cartes de jogo virtuais ocultos. If prompted, sign in to your Nintendo Account. Select the virtual game card you would like to unhide. Select Options Opciones Options Opes. Select Unhide Mostrar Ne plus masquer Exibir. The virtual game card will now appear again in the list of all of your virtual game cards. Lending virtual game cards to family members Just like with physical game cards, you can lend certain virtual game cards to other people. Keep in mind that you will not be able to play games that you lend out to other people, and you don't necessarily need to lend out games to share themany user on one of your consoles that can load virtual game cards can play any of your virtual game cards loaded to the console. There are some restrictions for lending virtual game cards: You and the borrower must have your consoles in proximity to each other to lend or borrow a virtual game card. The borrower must be part of your Nintendo Account family group. You can lend up to three virtual game cards at a time. The borrower can only borrow one game at a timethey cannot borrow games from multiple different people at once. You can only lend one virtual game card at a time to a particular console, even if multiple family members have users on that console. You cannot lend a virtual game card to a console that has users from multiple different family groups on the console. When you lend a game, any DLC you have purchased is also lent. Some games may not support lending virtual game cards to family members Virtual game cards can be lent to a family member for 14 days, after which they are automatically returned and can be lent out again. The borrower can return them early if they are done playingyou can also retrieve them early if necessary. How to lend and borrow virtual game cards Bring one of your consoles that can load virtual game cards and the console of the person that you want to lend the game card to close to each other. Make sure both consoles are connected to the internet. How to connect a Nintendo Switch to a wireless home network Place the Nintendo Switch within 10 feet of the wireless router to ensure a strong wireless signal. Select Settings from the HOME Menu on the Nintendo Switch console. Select Internet, and then Internet Settings . The Nintendo Switch will automatically search for near-by Wi-Fi signals. Select the appropriate network name (SSID) from the list. If prompted, use the onscreen keyboard to enter the network's wireless password . The Nintendo Switch will test the Internet connection. Once the test is complete, select OK to complete the process. For more information, see How to Connect to the Internet Using a Wireless Network. On your console: Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select the game you want to lend to your family member from the list of your virtual game cards. Select Lend to Family Group Member Prestar a un miembro del grupo familiar Prter un membre du groupe familial Emprstar para um participante do grupo de famlia . Select Select a User to Lend To Elegir a quien prestar Slectionner la personne qui emprunte Escolher para quem emprstar . Choose who you want to lend the virtual game card to from the list of your Nintendo Account family members. Be sure to choose someone whose Nintendo Account is linked to a user on the console you want to lend the game to. Desired user does not appear This means the person you want to lend the game to is not a member of your family group. You can only lend games to members of your family groupadd them to your family group, then try lending them the game again. Message: Cannot lend this user virtual game cards right now. You can lend each person only one game at a time. This means you have already lent that user a gameyou can only lend one virtual game card at a time to each borrower. If you would like to let them borrow a different game, ask them to return the one they are currently borrowing, or retrieve the game that you have currently lent to them: Select the game they are currently borrowing from the list of your virtual game cards. Select Collect from Family Group Member Recuperar Rcuprer d'un membre du groupe familial Reaver de um participante do grupo de famlia . Select Collect Recuperar Rcuprer Reaver to confirm. When the lent game has been returned, you can lend them a different game. Select Lend Prestar Prter Emprstar . On the console with the user that will borrow the game: The person that borrowed the virtual game card can now play the game (including any DLC you may have purchased) for up to fourteen days. Note that you will not be able to play the lent virtual game card until the game is returned after fourteen days, the borrower returns it early, or you retrieve it. How to return a borrowed virtual game card Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select the game you want to return from the list of your virtual game cards. Select Return to Family Group Member Devolver Rendre un membre du groupe familial Devolver para um participante do grupo de famlia . Select Return Devolver Rendre Devolver to confirm. How to retrieve a virtual game card you lent to someone else Select Virtual Game Cards Tarjetas de juego virtuales Cartes de jeu virtuelles Cartes de jogo virtuais from the HOME Menu. Select the user linked to your Nintendo Account. If you have enabled user verification, you may be prompted to confirm your identity by re-entering your password or entering a PIN Contrasea Code secret PIN. Select the game you want to retrieve from the list of your virtual game cards. Select Collect from Family Group Member Recuperar Rcuprer d'un membre du groupe familial Reaver de um participante do grupo de famlia . Select Collect Recuperar Rcuprer Reaver to confirm. Message: The system you're trying to collect from is offline. This indicates that the console you lent the game to is currently turned off or offline. Ask the person who borrowed it to turn their system on, connect it to the internet, and return the game to you. Note that if you are unable to contact the borrower, the game will be returned automatically at the end of the 14 day lending period. Message: The game is being played on the borrower's system. This indicates that the person you lent the game to is currently playing the game. You can wait to retrieve the game until after they are done playing, or ask them to stop playing and return the game to you. Note that if you are unable to contact the borrower, the game will be returned automatically at the end of the 14 day lending period. If you have more than two consoles that you want to use to play your digital games, please read How to Play Your Games Across Multiple Nintendo Switch2 or Nintendo Switch Consoles.
