This is a tamil movies site which has a unique collection of tamil movies as well as other movies with different names in tamil. Here is a huge collection of old and new movies that you can download in one click. This website is free and also has other Hollywood and Bollywood movies dubbed in Tamil. This site is also known for releasing several South Indian Malayalam and Telugu movies and is well known among people for fast uploading of high quality movies. ----- Disclimar : The main purpose of this extension is not to encourage people to use this kind of pirate websites. We are fundamentally against movie piracy. This is for educational purposes only. Netflix's original stunning sci-fi series Dark returns for its final season and is now watched by millions around the world. Unfortunately, the season was leaked online to pirate sites like Tamilrockers, Movierulz, Telegram and others. The first two seasons of the show have been around since the premiere and now the latest season has become the newest destination of the pirate website. The show is based on a mysterious journey through time and the adventures of the inhabitants of the German town of Winden. The synopsis of the Netflix series reads: "A missing child forces four families to frantically search for answers as they unravel an incredible mystery that spans three generations." However, this is not the first time a pirated website, show or movie has been discovered. Earlier Rashbri, Bulbul, Paatal Lok, Arya, Penguin, Gulabo Sitabo, Chintu Ka Birthday, Choked, Ratkanchal, Ghoomketu, Betaal,Family Man, The Raikar Case, The Hundred, Extraction, Hasmukh, Money Heist, The Lion King, Frozen 2 have been targeted by pirate sites. There have been some crackdowns on this page in the past, but the team behind this page appears to come up with a new domain every time the existing Tamilrockers page gets blocked. If they get banned, they will take over a new domain and launch pirated versions of the videos. For major theatrical releases, Tamil rockers have been known to present films only a few hours after the films are released. screens.
