This condition prevents the full retraction of the foreskin with or without an erection.[1][1]It is a simple and normally painless procedure that is performed in a urologist's office. First the physician applies a local anesthetic, such as lidocaine/prilocaine cream on the frenulum and surrounding area. If the patient retains any feeling there after the anesthetic has had time to take effect, the physician may recommend that the procedure be performed in a hospital, with stronger anesthesia.Once the frenulum is cut, the physician applies stitches to close the wound. The patient may be given a prescription for pain killers to take in case there is pain afterwards, but usually the only discomfort is from the pricking of the stitches on the foreskin. Once the stitches are removed, in about seven days, normal sexual activity can resume.^ Tan, Dr (2018-06-15). "Frenulum Breve The Frenulum Breve Treatment in Singapore!". Men's Health Clinic. There were two upgrades, GL/EF (elevation finder) and GL Mk.II (pictured), both improving the ability to determine a target's bearing and elevation. GL refers to the radar's ability to direct the guns onto a target, known as gun laying. The first GL sets were developed in 1936 using separate transmitters and receivers mounted on gun carriages. Several were captured in 1940, leading the Germans to believe falsely that British radar was much less advanced than theirs. The GL/EF attachment provided bearing and elevation measurements accurate to about a degree: this caused the number of rounds needed to destroy an aircraft to fall to 4,100, a tenfold improvement over early-war results. The Mk.II, which was able to directly guide the guns, lowered the rounds-per-kill to 2,750. About 410 Mk.IIs and 1,679 Mk.IIs were produced. He was a prominent employee of the Hudson's Bay Company. Tonen was the elected deputy chief before being the lead chief and later the life chief of his community. In his role as deputy, he negotiated with the Canadian federal government and the Ontario provincial government, advocating for his community to receive annual financial support from both. His attempts to secure land reserves for his community were thwarted by the Ontario premier Oliver Mowat. Tonen's prospecting triggered a 1906 gold rush and the creation of Kerr Addison Mines Ltd., although one of his claims was stolen from him by white Canadian prospectors. "Adore U" was chosen as the lead single for the EP and was performed on multiple music shows by the group. "Shining Diamond" was used as a pre-single on the group's reality debut show. The group stated that the tracklist was chosen to reflect Seventeen's core concept of "boys' passion".[1] The album has two physical versions: one with a "black" themed photo card set, and the other with a "white" themed photo card set.
