June 6, 2019 Commander 0 The first slice is another legendary legend of 5 colors that is an obvious but powerful choice for a commander. The fun part about the construction of a Sliver commander deck is that you can play with a commander of 5 different colors all games. The first splinter, however, is a particularly powerful option that anyone who has played with Maelstrom Wanderer will know. As always with our SÁ © Rie Commander, we are not here to tell you how to build your conversation, but we saved you some of the work to start. After the commander's options and Top Commander tribal cards, we classify all the splinters that exist as from modern horizons in three levels: top level chips, good chips and other splinters. Finally, we identify some major facilitators and 5-color lands to make the convenient work smoothly. Commander: Tribal synergies: Top Level Slivers: Good Lire: Other Lires: Lands and 5-Color Enablers: Do we miss something good? Is it anything on the wrong level?
