Ansys Electronics Desktop Student offers free access to the industry gold-standard Ansys simulators for work with antenna, RF, microwave, PCB, IC and IC package designs, along with electromechanical devices such as electric motors and generators. Students will have access to Ansys HFSS, Ansys Maxwell, Ansys Q3D, and Ansys Icepak, allowing design work on a broad range of electrical and electromechanical systems. Ansys HFSS is a multipurpose, full-wave 3D electromagnetic (EM) simulation software. Ansys Maxwell is a 3D electromagnetic simulation solver for electric machines and electromechanical devices. Ansys Q3D Extractor calculates the parasitic parameters of resistance, inductance, capacitance and conductance (RLCG) for electronics designs. Ansys Icepak is a computational fluid dynamics (CFD) solver for electronics thermal management. Terms of Use: Free student downloads are for educational use only and may only be used for self-learning, student instruction, student projects, and student demonstrations. DOWNLOAD ANSYS ELECTRONICS DESKTOP STUDENT 2022 R2 (Built-in license valid until 07/31/23) Before Installing: Ensure that your computer meets the technical requirements necessary to run the software. Ensure that you have administrative privileges for the computer on which you are installing this product. Please visit our Ansys Learning Forum for additional assistance. To perform the Ansys Electronics Desktop Student installation, follow the steps below. Save all data and close all Windows applications before continuing. After downloading the installation zip file, uncompressed the file to a new temporary directory. In the temporary directory, locate and right click the setup.exe file and select Run as administrator. Click Next on the installation window. The license agreement appears. Read the agreement, and if you agree to the terms and conditions, select Yes. The directory where you want to install Ansys products is shown in the Install Directory field. You can install the products into any directory for which you have write permissions. The default is C:\Program Files\AnsysEM. Click the Next to continue. Click Next on the review settings window showing directory and disc space information. The installation progress screen displays a status bar toward the bottom of the installation window. You will not be able to interrupt the installation process. The installation will check your system for the necessary prerequisites (described above). The prerequisites will be installed automatically if not already available. Supported Platforms and Operating Systems: Microsoft Windows 10, 64-bit (Professional, Enterprise and Education), supported builds: LTSB and CBB (CB not supported) Minimum Hardware Requirements: CPU: Pentium 4 2.0 GHZ or Athlon 2000+ or faster, 64-bit (x64) processor 8 GB RAM 17 GB hard drive space Graphics card and driver: Professional workstation class 3-D OpenGL-capable Download Times and Supported Browsers: These are large files. Your internet connection speed and connection overhead will determine how long the download will take. Download Speed (Mbps) Average Download Time for Ansys Electronics Desktop Student Product Supplied Internet Browsers 10 Mbps (10base-T/100base-T) 80 ms Mozilla Firefox or Microsoft Internet Explorer (7 or higher) Download Manager option as a pop-up window or a new Browser tab. Google Chrome: Direct download with no delay. Mozilla Firefox: Mozilla Firefox 6 or earlier. Other browsers and not supported: 25 Mbps (ATM256, 32 Mbps, 512 Mbps) (OC-15, 15 mbps ATM-HPC) Performance: Computer: Supports up to four cores for RPC solvers. Meshless solvers support up to eight cores.
