A rite of passage for the musicians is having a song on the radio graph of 40 hits. The Nielsen data analysis company tracks what people are hearing every week in 19 different countries and compiles information for Billboard's music graphics. Mainstream Top 40 The first 40 hits are thrown by the Hot 100 list published weekly by Billboard magazine. There are a number of factors that determine if a song makes the list of the first 40. They include:Sales: Nielsen tracks all sales of physical and digital records from 19 different countries, including the United States and Canada. This includes places, mass merchants, retail chains, independent stores and digital downloads. Streaming music: The number of plays on online radio stations such as Pandora, Spotify, Apple Music, Yahoo Music and AOL Music are recorded towards the total number of currents. Playing a music video on YouTube also counts as a song. Radio: Once a song is made popular enough to be picked up by radio stations, you can win a lot of traction and win a place on the Billboard Hot 100. Billboard Hot 100 is published weekly by billboard magazine. It is a list of the 100 most popular songs on the U.S. Billboard also tracks if a song is higher or lower in the graphics every week, its maximum position and its total weeks on the chart. You can watch the music video and listen to almost all the songs directly on Billboard's website. In addition to the Hot 100s, Billboard also tracks Billboard 200 and Artists 100. You can also see the top of the songs played on the radio, streaming songs, digital song sales and the first hits of the year. Hot 200 Albums Chart The Hot 200 Albums Chart tracks the albums of the week. Often, the artist with the first sale album is different from the artistThe single-selling single at the Billboard Hot 100. HOT 200 discs are published every Friday, which is also the global launch date for most new discs. To track sales and streaming, the HOT program 200 Albums Chart Chart delayed for a few days to cover a full week of sales. For example, if a graphic album on January 27, it is the total number of listeners will be from the follow-up week of January 12 to 18. Sales & Streaming While disk sales are decreasing in recent years, the use of streaming services is increasing. In recent years, audio and video streaming services on demand have set high records for currents. Music consumption has risen, but music sales have dropped. RadioThe world's largest AM/FM radio is iHeartRadio. Radio is still the most popular way to consume music. For an artist to do the Top 40, he needs to have high radio works. Nielsen tracks radio stations all over the country and measures which songs are playing. This information helps Billboard tracks the best songs in the country.
