Have you ever played this console a game? Although Android games with many HD graphics are scattered, but if you want nostalgia to play PS2 games, right? At present it is possible to use various PS2 emulators for Android, PC or laptops with a dimension of light, band. So what are the best recommendations PS2 emulator for Android DN PC / Laptop? Come on, a look at the other reviews below, eh! Download the Best PS2 Android & PC Emulator 2021, even if it doesn't have a PS2 console, you can still play the best and most recent PS2 games on your Android phone device or PC or your laptop, LOH! To play, you need to download the PS2 emulator that installs on the device you intend to use, band. Well, here is Jaka recommends PS2 Android emulator and PC / laptop to try. Come on, immediately look at the review! Download the best Android PS2 emulator before, Jaka will discuss a series of the best Android emulator recommendations that most of you can download and play for free. Oh yes, it's not enough to choose the emulator, eh! The problem is not all emulators can run the PS2 ISO game smoothly and without delay, band. Especially to run the emulator, you need to check the specifications of your Android phone first. So what is the recommendation? 1. Play! PS2 Emulator for Android First PlayStation 2 Emulator Jaka recommended theatrical work! This application has become a guarantee for those of you who want nostalgia with the legendary PS2 game, one of the best emulators for PS2 has the advantage in a simple and easy way to understand the user interface, band. Play! You can read almost all the ISO PS2 games automatically. Oh yes, with a fairly small size, this emulator is one of the favorites majority to the Android mobile phone player. Particular play! PS2 emulator for Android Developer Infnoxdex Android 3.0 operating system and higher minimum 8.2MB Play Size Download Application! PS2 Emulator for Android here: Play! - PS2 Android 2020 Emulator 2. Pro PPSS2 Gold Pro PPSS2 Golden also includes one of the lightweight Android APK PS2 emulators and the best you have to try, band. He claimed to be able to perform 90 percent of the PS2 games, the Pro PPSS2 of gold has advantages in its easy use, convenient control, and freedom to change the theme. If you have familiarity with a PCSX2 PC name emulator, Android doesn't need to install PS2 BIOS as in the PC emulator. Really easy, right? Pro Details PPSS2 Golden Developer PS2 Team Emulator SO Android Minima 4.0.3 For Over Size 7.8MB Evaluation (Google Play) 4.2 / 5 Download Pro PPSS2 Gold Application Here: Gold PS2 Emulator (Pro PPSS2 gold) 9,000, 1 3. Damonps2 Pro (for a fee) If you want to find the best of the best, the PS2 emulator for Android Damonps2 Pro can be an option with its various premium features. Unfortunately, to enjoy, you need to pay RP139.999, -. It is very expensive, but for the best experience the price is quite worth it, why! Because, here you can get features such as bilinear filtering texture, widescreen games and hid gamepad which is not necessarily found on other PS2 emulators. The free version of this application is also there, but a lot of advertising should be testified before you can play the PS Android game with this PS2 free emulator. Damonps2 Damonps DederPS2 Damonps2 Emulator Studio operating system Android 5.0 and higher minimum size 28MB Evaluation (Google Play) 3.7 / 5 Download the application Pro Damonps2 Here: Emulator applications Damonps2 Emulator Studio Download Emulator Emulator The light PC is not satisfied with the PS2 game on the Android phone because the screen is small? Take it easy! You can also download the PS2 PC portable emulator, like never. Many recommendations for PS2 PC emulators that can be tested. One that Jaka I recommend it is clear, ie PCSX2. But, in addition to downloading the PCSX2 application, you also have to prepare different support applications before, band. Jaka has already given the PCSX2 download link below. So how do you download and play? Just look at the following operations! How to download and install the ps2 emulator on a PC / laptop If you have downloaded all support applications, just follow step by step to install the emulator PS2 on the laptop as the following. Open the Mentahan PCSX2 that has been downloaded and then take the installation step as in general. In these window settings, you can configure the Pad menu if you play with the keyboard. If you use a stick or gamepad, just put this step. How to configure the PS2 PC Emulator BIOS After completing the Windows 10 PS2 emulator installation and another version, then the BIOS configuration. The method is sufficient to follow the guidelines as follows. Remove the BIOS PCSX2 file that is formatted. RAR and place it in the folder you want. In the PCSX2 window, click Browse in the BIOS menu and go to the folder where the BIOS file savings. The update list to view the list and select the one you want to use. How to use the PS2 PCSX2 emulator game Install GiÃ PCSX2 and BIOS? Of course only live here! How to play PS2 games with PCSX2 emulators is also quite easy, Loh. Here are the steps: Make sure you have downloaded the PS2 ISO game, like Digimon Rumble Arena 2 or other that you can get here: Download the free PS2 Iso game! Open the PCSX2 window, then go to the CDVD menu> Iso Selector and the Look for the PS2 game you have previously downloaded. If it is loaded, return to the PCSX2 window and go to the System menu> Reboot CDVD (FULL) or Reboot CDVD (FAST). Then the game will be executed automatically. This is the appearance of the PCSX2 emulator when running the game. You can also set the graphics, controllers and others on the configuration menu, band. Bonus: the best PS2 ISO game download different site to learn about the download link and how to play, it is also possible to search for the best PS2 ISO games of all time and among your favorites on the following sites, bands. 1. The first is a coolrom coolrom (, which has many PS2 game databases that can be downloaded free of charge. The ISO PS2 download site also provides games for other consoles, such as PlayStation 1, PlayStation Portable (PSP), Sega, Atari and others. The ISO file that you download from this site can be used on PS2 LOH emulator, band. So you can immediately reproduce on your laptop. 2. PortalRoms then there is also a site called PortalRoms (which is suitable for you who prefer the download through ISO Torrente. Here are also many types of games that can be downloaded, even for the latest consoles like PlayStation Vita and Nintendo 3DS also, band. Well, if you are still unchecked to download the torrent format, you can read the guide here: a simple way to download torrent files on the PC and Android. 3. ROMSMANIA The last site that Jaka recommends is Romsmania (, although the PS2 game collection is not as many as the two sites mentioned above. However, here you can still find some popular games, such as Dragon Ball Z - Budokai Tenkaichi 3 and others. Oh yes, after using Romsmania, Jaka felt that this site became the fastest in file download. Interesting, right? Well, the most complete reviews on how to download the game for ISO from every site above, you can read more in the article below, eh! Free ISO PS2 Collection Games and Android and PC (most upgrade) Emulator Games Games Well, this is the recommendation of Android and the best and lighter PC / laptop PC / laptop to be played on Android phones and PCs and laptops, bands. Is it ready to stay with the most favorite PlayStation 2 games? So what game do you want to play? Come, share and tell JAKA in the comments column below, yes!
