Juliette's been locked up in an institution for 264 days. Her parents voluntarily handed her over to the government because they feared her. Ever since she was a child, Juliette's touch has caused other people pain. She attended school, but was kept separate from her peers. They were warned not to go near her. His incarceration took place after he inadvertently killed a child. He only wanted to help him after his mother laid him down, but when he touched him, he died. In solitary confinement for almost a year, Juliette is surprised, and a little frightened, when she is given a roommate. Especially because © has its age. Even if he wants the company, he is reluctant to open up with him. She's been alone, emotionally and physically, for so long, she doesn't trust anyone. His only comfort so far has been the little notebook he writes daily. Only there he admits his desires and fears. Record what you know about restoration, a group that has promised to help the nation recover what it has lost due to climate change. Birds, animals and fish are dying. Cultures can no longer grow because © The climate is irregular on a hot day, the day after cold. But the Reconstitution has become a violent tyranny, intent on subjugating the people and keeping power and wealth to itself ©. His new roommate is sweet and kind, but Juliette does not allow herself to trust him. After a few days, Juliette admits to herself that she knows him. This is Adam, the only boy at school who has ever looked at her with kindness and not fear. She wishes to tell him who she is, especially when he comforts her after a nightmare. It breaks her heart that he seems to have forgotten her. Before she has the courage to tell him the truth, the soldiers arrive, beat her and drag her out of her cell. As she passes out, she fears that the soldiers killed Adam for trying to protect her. You're Juliette. two days later and discovers that Adam is a soldier for theShe is heartbroken. At the gun point, he and another guard take her to meet Warner, the officer in charge. Warner has studied his records and knows his power. She sent Adam to her cell to make sure she wasn't psychotic, that she could be rational. Now that Juliette's holiness is determined, Warner has a deal for her. In exchange for his freedom and luxury lifestyle, he will be Warner's personal weapon. Juliette initially refuses her offer, but Warner will not be put in such a hurry. She ordered Adam to protect her and help her break it. Adam's taking Juliette to her new home. Along the road, you see how the Restoration has changed the landscape of the city. Houses have been destroyed in favor of large compounds. He sees the despair of people on the streets, and the fear of being killed if they protest against the government. She is shocked when Adam takes her to a huge institutional-looking building and discovers that inside, she is a witness of greed and excess. Its new bedroom is beautiful with a queen-size bed and a bathroom with shower. Adam tells her that it is also full of cameras everywhere but in the bathroom. Even if she succumbs to the temptation to bathe in royal soap and shampoo, she refuses Adam's request, on Warner's orders, that she put on a new dress for dinner. Warner tries to bribe Juliette with decent food, but refuses to eat. Warn her that her patience is not infinite. When he goes to his room, he discovers that Adam was beaten because © He didn't convince her to wear a dress. Even if you hate that you are now a soldier, you will not allow him to suffer because of you. When Adam tells her to wear the purple dress, she takes it out of the armory. Then he finds his notebook, hidden on a shelf. He hides it under his dress and takes it to the bathroom where there are no cameras. Once the door is closed, open the notebook and discover that Adam wrote note telling her that things are not They seem to be. Juliette puts on the dress, even as she asks the meaning of the note. Warner arrives and walks her into a courtyard where hundreds of soldiers have gathered. He shows his ruthlessness by shooting a soldier in the face for treason. Juliette goes back to her room but wakes up that night with nightmares. She discovers that Adam is sleeping on her floor. It comforts her and she goes back to sleep. In the morning, she accidentally walks on him in the bathroom. Before putting on his shirt, he sees the bruises he has suffered for his disobedience. He closes the door and turns on the shower, then he brings it over. You can touch it. Adam discovered that she was immune to her power when he tried to wake her from a nightmare in the institution. She didn't know why she should be afraid of her until Warner made her touch another soldier. While Adam keeps her close, he promises to find a way to free her. Warner becomes possessive and controlling. He escorts Juliette everywhere and orders her to speak only to him. She asked to remove the cameras from her room. When Adam walks her to her room, she dismantles the cameras. Without them, the two finally admit that they always knew who the other was, and always cared for the other. They share a moment of passion for intimacy in front of another soldier, Kenji, who interrupts them. When she leaves, Juliette tells Adam she wants to run away. He tells her he'll help her and go with her. He's loved her since he first saw her. When the other children hit her with rocks or cruel things, she never turned back. He often helped them when they were in trouble. Adam tells her the troops are preparing to mobilize. They'll have three weeks at most to make an escape plan. Two weeks later, they passed Warner after they discovered the notebook Juliette keeps. He tries to convince Juliette that Adam is not what he seems, that she should be with him. While she and Adam run out the window, WarnerThe leg to try and drag it back. He runs away with Adam, hoping Warner doesn't realize he's touched his skin and hasn't felt any pain. They were captured and Adam brought Juliette to his secret apartment outside the city. She's shocked to meet her little brother, James. He kept his brother's secret from Warner, knowing that his superior would threaten his life if he ever found the boy. James attends an informal school with other abandoned children and orphans. While she's at school, someone's there at the apartment door. It's Kenji, Adam's friend. He was shot in pursuit, but he promises not to be followed. Adam insists he leaves knowing Kenji has a chemical trail Warner's tracking. Kenji asks for help and tells him he knows of a place where everyone can hide. I'm not sure I can trust him, but knowing that their home is no safer, Adam agrees to run away with Kenji once his brother returns from school, but Warner's soldiers find the apartment. Adam shot his leg. Warner takes Juliette's prisoner, taking her to an abandoned classroom. Warner enjoys touching Juliette with no pain. Try to seduce her into going back with him. He pretends to enjoy his progress so he can smash his jacket, steal his gun and shoot him. She runs all over the school and finds Adam tied to the ceiling but alive. They meet Kenji and James and run away from the soldiers. Kenji's taking them to a secret resistance group. Adam is taken in their medical department, while Juliette is taken to a separate part of the structure. He knows Castle, the leader of the group calling Omega Point. It's no coincidence Juliette's here. Castle asked Kenji to bring it. He explains that the world is not as bad as the Resurrection led mankind to believe. They kept food and animals away from the public. Castle thinks he can. by is wrong in the earth. But the real surprise is when he finds out that the structure has others like her, with special abilities. Castle brought them together to create an army to fight Restoration. He can move things with his mind. Kenji is a chameleon, which merges in its surroundings so it seems to disappear. Another guy channels electricity. Others can heal people. Castle believes Adam has abilities too, because he is immune to Juliette's touch. When he receives the news that Warner is still alive — he survived the shooting — Juliette and Adam know that they must join Omega Point and fight. Fight.
