Learn how to obtain the Parasol Flower in Grow a Garden. This mythical crop boasts the highest base price in the game. Parasol Flower Guide (Image via Roblox Corporation) The Parasol Flower is a new mythical crop in Grow a Garden. It was added during the Summer Update. It is a unique flower that comes in varying colors. As the name suggests, it resembles the shape of an umbrella. Funnyly enough, holding the crop after harvest makes your character look as if they are holding an umbrella. Let us explore how to obtain the Parasol Flower in Grow a Garden. We will also be talking about its base price and minimum value. The Parasol Flower has the highest base price of any crop in the game. Here is a list of all the traits, including the minimum crop value: Tier: Mythical Single Harvest: Cannot be multi-harvested and yields only one crop. Base Value: 200K Sheckles Minimum Value: 165.3K Sheckles Huge Chance: 0.29% Get it from the Summer Seed Pack (Image via Roblox Corporation) The Parasol Flower is tied to the ongoing Summer Harvest Event in Grow a Garden. There are two ways to obtain the flower: 10% chance after opening a Summer Seed Pack. You can obtain it by participating in the hourly Summer Harvest Event. There is a 33% chance of getting one if you and your fellow players raise over 300 points. You cannot buy this pack with Robux. 10% chance of getting it from an Exotic Summer Seed Pack. This is the premium version that can only be purchased from the shop with Robux. One of the packs costs 199 Robux. Considering a Summer Seed Pack only has a 10% chance to drop the Parasol Flower seed, you might need to grind a bit to get it. Here is the complete drop chance for the seed pack: SeedDrop ChanceWild Carrot40%Pear25%Cantaloupe20%Parasol Flower10%Rosy Delight4.5%Elephant Ears0.5% If you are not looking to spend Robux, grinding the Summer Harvest Event is the only option. Try to server hop into a good one before the hourly event starts to increase your chances of getting the seed pack. Alternatively, you can buy the premium version from the shop. As of right now, you can buy the Exotic Summer Seed Pack in three ways: PackCost1-Pack199 Robux3-Pack575 Robux10-Pack1,699 Robux Buying the 10-Pack is cheaper per pack. Here is a list of the seed drop chances for the Exotic Summer Seed Pack. The pack boosts the drop chance by including the Rainbow Sack. However, the base Parasol Flower drop chance is the same as the normal Summer Seed Pack. SeedDrop ChanceWild Carrot39%Pear25%Cantaloupe20%Parasol Flower10%Rosy Delight4.5%Elephant Ears0.5%Rainbow Sack1% Thank you for reading the article. We provide the latest news and create guides for Baldur's Gate 3, Starfield, ARK Survival Ascended, and more. Also, watch Delta play games on Twitch or visit his YouTube channel! Every so often, the developers of Grow a Garden come up with a unique-looking plant that players would absolutely want to have in their garden, and the Parasol Flower is one such crop added in the Summer update. It's of the Mythical rarity and won't be available in the seed shop when it restocks. Here's how to get this seed, its selling price, and more. Also Read | How to Get the Paradise Egg Players can obtain the Parasol Flower through the Summer Seed pack, and the Exotic Summer Seed pack at a 10% chance as well as the Rainbow Sack. The latter can be obtained from the Exotic version of the pack (199 Robux for 1) at a 1% chance at the time of writing. However, the free way is to get the Summer Seed pack by playing the Summer Harvest event because when you collect 300 or more points, there's a 33% chance of getting this as a reward. When you try to sell this crop, you can get around 165,000+ Sheckles which can also reach 200,000. Moreover, if you let it collect multiple mutations, its value will significantly increase, so make sure to play during the 'admin abuse' event before every update. Visually, the plant looks like a parasol with two colors along with a green stem. If you want to beautify your garden, it's worth having this crop, however, it is unfortunately, single harvest. To avoid accidentally harvesting this plant, favorite it using the Favorite tool and it will stay in your garden giving it the pop of color permanently (until you unfavorite it). In case it gets the Shocked, Disco, Gold, HoneyGlazed, or other visually eye-catching mutations, your garden is bound to stand out among the crowd. That's all for this one! If you're a new player or want to know the best ways to earn more Sheckles, convert a tree back to its seed, collect honey fast, or increase your backpack size, check out our guides on Gamer Tweak. I've been absolutely obsessed with the new Summer Seed Pack in Roblox Grow a Garden, and after opening dozens of these bad boys, I'm here to spill all the tea on what makes them so special. Trust me, if you're looking to make serious Sheckles or just want the prettiest garden on the server, you need to know about these exclusive seeds! The Summer update has completely transformed Grow a Garden, bringing vibrant new plants that not only look amazing but can make you filthy rich. Whether you're a seasoned farmer or just starting out, I'll show you exactly how to get your hands on these coveted seed packs and which seeds are worth the grind. The Summer Seed Pack is a special limited-time pack that arrived with the massive Summer Harvest update in 2025. It features a bright cyan design with orange accents and a cheerful sun on the front - you literally can't miss it in your inventory! What makes this pack so special? Unlike regular seed packs that mostly contain common shop seeds, the Summer Seed Pack includes six exclusive seeds you can't get anywhere else. Some of these babies, like the ultra-rare Elephant Ears, can sell for astronomical amounts of Sheckles. Here's the complete breakdown of every seed you can pull from the Summer Seed Pack: Seed NameRarityDrop RateInvest TypeAvg. Sell PriceWild CarrotCommon40%Single5,000 ShecklesPearCommon25%Single6,000 ShecklesCantaloupeRare20%Single25,000 ShecklesParasol FlowerUncommon10%Single35,000 ShecklesRosy DelightDivine4.5%Multi250,000 ShecklesElephant EarsPrismatic0.5%Multi80,000 Sheckles Yeah, I know what you're thinking - that 0.5% drop rate for Elephant Ears is brutal. But don't worry, I've got strategies to maximize your chances! There are two main ways to snag these packs, and I recommend using both if you're serious about collecting all the seeds. This is my favorite method because it's completely free and actually pretty fun! Here's how it works: Check the Timer - Head to the center of the map where Georgia NPC stands next to a huge harvest cart. The event starts every hour on the hour. Prepare Summer Fruits - Buy and grow any of the new summer seeds from Sam's shop (Green Apple, Avocado, Banana, etc.). Old seeds won't work! Submit During Event - When the 10-minute event starts, hold your summer fruits and press 'E' near the cart to submit them. Collect Rewards - Based on your server's total points, you'll receive rewards including Summer Seed Packs (50% drop chance). Pro tip: Even submitting just one fruit gets you the same rewards as everyone else on the server. But if you don't submit anything, you get zilch! If you're impatient like me, you can buy packs directly: Single Pack: 199 Robux 10-Pack Bundle: 1,699 Robux (saves you 291 Robux!) The premium version supposedly has better drop rates for rare seeds, though I haven't noticed a huge difference in my testing. Let me break down each seed so you know exactly what you're getting: The holy grail of the Summer Seed Pack! These massive gray plants literally look like elephant ears and take up a decent chunk of space. But here's the kicker - they're multi-harvest and each harvest sells for around 80,000 Sheckles. Despite the insanely low drop rate, if you get one, you're basically set for life. My personal favorite! This gorgeous golden rose is not only stunning but also multi-harvest. It grows larger than any other flower in the game and consistently sells for 250,000+ Sheckles per harvest. With a 4.5% drop rate, it's rare but definitely obtainable with some persistence. This decorative beauty looks like a tiny umbrella and adds serious style points to any garden. Single harvest only, but at 35,000 Sheckles per plant, it's a solid mid-tier option. I like to plant these around my garden edges for aesthetics. Don't sleep on the Cantaloupe! While it's single harvest, beginners can make bank with these orange beauties. They grow relatively fast and pair amazingly with mutations. I've sold Sundried Cantaloupes for over 100,000 Sheckles! Basic but reliable. Pears are great for filling up your submission basket during Summer Harvest events. They're nothing special profit-wise, but hey, you need something to submit! The most common drop, but don't instantly trash them! Wild Carrots grow super fast and are perfect for quick event submissions. Plus, they look pretty cool with their wild, untamed appearance. Based on my extensive testing, here's my profit tier list: S-Tier (Must Have): Elephant Ears - Despite being single harvest, the 80k price tag is unmatched Rosy Delight - Multi-harvest + huge profits = winning combo A-Tier (Excellent): Cantaloupe - Great for beginners, amazing with mutations B-Tier (Decent): Parasol Flower - More for looks than profit, but still solid C-Tier (Event Fodder): Pear & Wild Carrot - Keep for submissions, sell if you need space Since this is the main way to get free packs, let me give you the complete rundown: Event Schedule: Every hour, lasts 10 minutes Point System: Common fruits: 1 point Uncommon: 2 points Rare: 3 points Legendary: 4 points Mythical: 5 points Divine: 6 points Reward Tiers: Common (10-2,000 points): Basic rewards Uncommon (2,001-4,000): Better gear and seeds Rare (4,001-6,000): Rare eggs appear Legendary (6,001-8,000): Exclusive seeds Mythical (8,001-10,000): Premium rewards Divine (10,001-12,000): Top-tier items Prismatic (12,000+): Maximum rewards! The key is server cooperation - I always type in chat to remind everyone when the event starts! After participating in hundreds of Summer Harvest events, here are my best tips: Stock Up Before Events - I keep at least 20-30 summer fruits ready to go Use Multi-Harvest Wisely - Plant Rosy Delight and Elephant Ears with Sprinklers for maximum efficiency Mutation Combos - Sundried + Verdant = Paradisal (18x multiplier!) Pet Synergies - Use the Scarlet Macaw pet for Verdant mutations on your summer plants Server Hop - If your server isn't hitting high tiers, find an active one Bundle Strategy - If buying with Robux, always go for the 10-pack bundle Absolutely! Here's why: Free Method Available - You can get packs without spending a dime Exclusive Seeds - These plants aren't available anywhere else Massive Profit Potential - Even one Elephant Ear or Rosy Delight pays for itself many times over Limited Time - Once the summer event ends, these might become ultra-rare Even if you only get common seeds, they're perfect for event submissions to earn more packs. It's basically a self-sustaining cycle! The pack is tied to the Summer Harvest event, which typically runs for several weeks during the summer season in 2025. Stock up while you can! No, seeds from the pack are untradeable. However, you can gift the grown plants to other players! While Elephant Ears has the highest individual value, Rosy Delight offers better overall profit due to its higher drop rate and multi-harvest nature. Yes! All summer plants can receive mutations. I've gotten Sundried Elephant Ears that sold for over 300,000 Sheckles! Based on probability, you'd need about 200 packs for a good chance at Elephant Ears, but only about 22 for Rosy Delight. RNG can be cruel or kind! Yes, packs stay in your inventory even after the event ends. Some players save them hoping they'll become valuable! Divine and Mythical rarity fruits give 6 and 5 points respectively. I recommend growing Feijoa and Loquat from the shop for easy high-tier submissions. The Summer Seed Pack has completely changed how I play Grow a Garden. Whether you're grinding for that elusive Elephant Ears or just want to make your garden pop with colorful new plants, these packs are absolutely worth pursuing. Remember, even if you don't get the rarest seeds right away, every pack gets you closer to your goal. Happy farming, and may the RNG gods smile upon you! Players are still missing the loss of the Candy Blossom, but is the Grow a Garden Parasol Flower the new Candy Blossom? Let's talk about it!Grow a Garden is available to play on Roblox. Check out our picks for some of the best summer fruits to use if you don't have the Candy Blossom in Grow a Garden. tooIn short, yes! As the Candy Blossom is unobtainable right now, and even though it is known as the meta, the Parasol Flower is arguably better.The Candy Blossom was obtainable from the Easter Event Shop for 10,000,000 Sheckles. Despite it being expensive, it had a base value of 100,000 Sheckles. However, the Parasol Flower has a base value of 200,000. This is without any mutations. If it had a mutation, it would sell for tons more. The only downside to the Parasol Flower is that it isn't multi-harvest, whereas the Candy Blossom was. Even still, the Parasol Flower has bonus points for being obtainable if you have a Parasol Flower. I recommend leaving it in your garden so it can get as many mutations as possible. Then, once they stack, you can sell it to make a huge profit. Or, you can keep it and show it off to other players.You can get the Parasol Flower inside a Summer Seed Pack, with only a 10% chance of obtaining it. To get this pack, you need to participate in the Summer Harvest event and hand in Summer Fruits to earn Harvest Points. You will be rewarded with a Summer Seed Pack when you have the following Harvest Points: 300 Harvest Points1,000 Harvest Points1,400 Harvest Points4,000 Harvest PointsEven if you do reach these points, there is only a 33% chance that you will get a Summer Seed Pack. Therefore, taking into account this 33% chance, alongside the 10% chance of actually getting this seed from the pack, the Parasol Flower makes for a tricky seed to get. However, looking at the value, it's worth it! The Parasol Flower is a vibrant Mythical-tier crop introduced on June 21, 2025. It is a single-harvest plant obtainable primarily through the Summer Seed Pack, Exotic Summer Seed Pack, and Rainbow Sack, each offering a 10% chance to acquire its seeds. Known for its high market value and unique appearance, the Parasol Flower is a coveted addition to any tropical or ornamental garden. Appearance The Parasol Flower blooms with red and white petals, which can appear purple under certain lighting. Its circular canopy-like blossom closely resembles a traditional Japanese parasol, making it a standout feature among other flower-type crops. Obtainment Players can obtain Parasol Flower seeds mainly during the Summer Update by opening: Due to its single-harvest nature, growers must replant seeds to maintain a steady supply. Specifications Property Value Tier Mythical Multi-Harvest No Date Added June 21, 2025 Base Value 200,000 Price Floor Value 165,300 Base Weight 6.00 kg Price Floor Weight 4.30 kg Minimum Weight 4.20 kg Huge Chance 0.29% Seed Sources Summer Seed Pack, Exotic Summer Seed Pack, Rainbow Sack Trivia The Parasol Flower is one of the few flowers in the game with a tropical classification. Its parasol-like shape draws inspiration from traditional Japanese umbrellas. Gallery Seed See Also Summer Seed Pack Exotic Summer Seed Pack Rainbow Sack Template:Navbarthing Uh oh, this plant hasn't grown yet! This page is classified as a stub, and lacks information that is needed. Please help us out by putting more information and images. Thank you! You can help Grow a Garden Wiki by expanding it. 10% Normal, Exotic, and Rainbow Sack 165,300 200,000 Overview[] The Parasol Flower is a single-harvest Mythical crop from the Summer Seed Packs. Appearance[] The appearance of a Parasol Flower is resembling the shape of a Japanese parasol. The top of the produce can be either monochrome or in different color combinations: red, green, yellow, black, white, blue, pink and purple. The Parasol Flower seed has a red and turquoise gradient to it. Obtainment[] The intended obtainment method of a Parasol Flower is through the Summer Update. It is obtainable in Summer Seed Packs and Exotic Summer Seed Pack at a 10% chance. Although this fruit is as hyped as it is, unfortunately this fruit has a kg limit meaning it is worse than the candy blossom at only 10 kg max. Trivia[] Gallery[] Parasol Flower Mutations Gallery Mutations are listed alphabetically. This template automatically grabs .png files for its gallery if you name them correctly when uploading. Check out the Manual of Style > How Do I _____? section if you have a missing Parasol Flower mutation that you would like to upload! Please note that mutations where the entire crops changes color need to be .gif files. The Grow a Garden Summer update brings a complete seed and style overhaul. Alongside changes to the shop, there is a new Summer Seed Pack you can obtain in the game. This new pack holds a set of new seeds that can help you earn more Sheckles or make your collection look even brighter. So, in this guide, check out how to get the Summer Seed Pack in Grow a Garden, along with the seeds you can get from them. Summer Seed Pack comes with some of the most attractive new seeds in Grow a Garden. The pack is packed with a combination of single-harvest flowers to multi-harvest fruits. Some of these plants are extremely pretty, which makes your garden look exceptional. Along with a style upgrade, you'll be able to make money in Grow a Garden quickly by selling these crops. So, here is the list of all Summer Seed pack seeds in the game: Crop ImageCrop NameRarityDrop RateHarvest TypeAvg Sell PriceWild CarrotUncommon39%Single46,000PearRare25%Multi18,000CantaloupeLegendary40%Single180,000Rosy DelightDivine4.5%Multi65,000Elephant EarsPrismatic0.5%Multi80,000 Unlike the Crafters Summer Seed pack that you can craft in Grow a Garden, you get the Summer Seed pack from the new Summer Harvest event. While it doesn't require Sheckles or Honey, you must submit new summer fruits to get these packs. The obvious Robux-spending Premium seed pack method is there too, but I ain't spending any money on it. That said, here is how you can complete the Summer Harvest event to get the Summer Seed pack in Grow a Garden: When the Summer Harvest event starts, go to the centre hub beside the Georgia NPC. Now hold a summer plant (Green Apple, Avocado, Banana, etc.) and click the E button to submit it. Once the basket starts filling up, the board next to it will count the Reward Points. Based on the rewards level, you will have a chance to get Summer Seed packs from the event. The seed pack has a 50% drop chance, so you will get one guaranteed pack even if the reward meter reaches the Uncommon level. Image Credit: Grow a Garden/Roblox (screenshot by Ishan Adhikary/Beebom) Although all the plants you get from this pack are good, the single harvest ones are not worth the time and effort. Here are three of the best Summer Seed Pack seeds that you must use to make a profit: Elephant Ears: Despite having a Prismatic rarity, which makes it almost an impossible plant to get, the Elephant Ears can sell for an average of 80k Sheckles. And it looks good, so you can keep it in your garden for some style points. Rosy Delight: The Rosy Delight is a Divine-rarity crop and also a multi-harvest one. It offers great value, as its flower grows larger than any other flower-type plant in Grow a Garden. Cantaloupe: Although this plant gives you one crop at a time, for a beginner level, it can get you a lot of Sheckles. Especially when you can combine it with some of the strongest Grow a Garden mutations. That's everything you need to know about the Summer Seed pack in Grow a Garden. So, which seed are you grinding for right now? Let us know in the comments below! Quick Links ▼Grow A Garden is a popular Roblox experience where you plant seeds, grow plants, and sell the fruits and flowers for high profits to get rich. Recently, the Summer Update went live, which introduced lots of new seeds that you can plant in your garden.One of the crops that can give you lots of profits is the Parasol Flower, which is a Mythical-tier seed that was introduced during the Summer Update on June 21, 2025. So, here's a complete guide on how to get Parasol Flower in Grow A Garden and how you can use it in the Summer Harvest Event.Screenshot by Game Geek FusionYou can't get Parasol Flower directly from the seed shop. Instead, you can only obtain it through special means. Moreover, since it is an event seed, you cannot use pets like Red Fox to duplicate it from others' gardens.So, you will need to acquire it through either the Summer Seed Pack, Exotic Summer Seed Pack, or Rainbow Sack. Each of these seed packs has the same odds of 10 percent of giving you the Parasol Flower.You can get the Summer Seed Pack only from the Summer Harvest event. To get it, you will need to earn at least 300 harvest points. You won't be able to buy this seed pack directly with Sheckles or Robux.Instead, submit summer crops to the Georgia NPC to increase your harvest points in the event. After you open this pack, you will have a 25 percent chance of getting Parasol Flower seeds.This is a premium version of the Summer Seed Pack that you can buy in the shop only with Robux. You can buy just one pack or in bundles.No. Of PacksRobux11993575101,699Your chance of getting the Parasol Flower seed is the same in the Exotic Summer Seed Pack at 10 percent.To get the Rainbow Sack, you have to open a few Exotic Summer Seed Packs. It has a one percent chance of appearing in the Exotic Summer Seed Pack during the Summer Harvest event. Here, you will get the same odds of 10 percent of getting Parasol Flower seed.Screenshot by Game Geek FusionThe Parasol Flower is a single-harvest crop of Mythical rarity. Despite being a single harvest plant, you will get high returns on just one Parasol Flower.AttributeValueNameParasol FlowerRarityMythicalHarvest TypeSingleSeed SourcesSummer Seed Pack (10%), Exotic Pack (10%), Rainbow Sack (1%)AppearanceRed/purple parasol-shaped flowerWhether or not the Parasol Flower is worth it depends on your goal. If you're aiming to complete the Summer Harvest Event, this flower is essential. However, its single-harvest nature limits its long-term profitability compared to multi-harvest plants like Feijoa or Dragon Pepper.As a result, the Parasol Flower is not ideal to invest for long-term investment. Instead, you can focus on other higher-tier plants like Rosy Delight or Elephant Ears that you can harvest multiple times.If you are actively playing the Summer Harvest event, you can get free rewards by collecting Harvest points. You can collect these harvest points by submitting Parasol Flower to the NPC Georgia. You need to submit Summer Crops every hour to get the Harvest points.After reaching a certain number of points, you can receive different rewards from the event. Parasol Flower is a Mythical-tier plant that gives you 5 points per harvest in this event. Here's a list of all the summer crops that you can submit and the corresponding points you can get:RarityHarvest PointsPlantsCommon1Carrot, StrawberryUncommon2Blueberry, Wild CarrotRare3Pear, Tomato, CauliflowerLegendary4Cantaloupe, Watermelon, Green Apple, Avocado, BannanaMythical5Pineapple, Kiwi, Bell Pepper, Prickly Pear, Parasol FlowerDivine6Rosy Delight, Loquat, FeijoaPrismatic7Sugar Apple, Elephant EarsHere's a full table of the top seeds added during the Summer Event and available from Sam's Seed Shop:CropRarityBuy PriceAvg. Sandbox, MMO, Social Release Date: 2006 Platforms: Windows, macOS, iOS, Android, Xbox One Developer: Roblox Corporation Publisher: Roblox Corporation Parasol Flower is a Mythical seed that was introduced to Grow a Garden on June 21, 2025, as part of the Summer Update. If you're looking to add this tough-to-get crop to your garden, I've put together a guide on everything you need to know about how to get it and more. Parasol Flower Seed Parasol Flower Crop Harvests Rarity SingleMythicalParasol Flowers are a limited-time seed added in the Summer Harvest Season Update that can be a little tricky to get. There are two methods with one costing real money and the other relying on getting lucky: There's a Summer Harvest event every hour where players can donate summer plants at the center of the island to earn Harvest Points. When the event ends, you can get a variety of rewards with one of them being a Summer Seed Pack. This has a low chance of giving the Parasol Flower seed. You can spend Robux to buy the Exotic Summer Seed Pack from the Shop. 1 pack is 199, 3 packs are 575, and 10 packs are 1,699. Similarly, this has a low chance of giving a Parasol Flower seed, as shown in the section below. Since Parasol Flowers are an event seed, you can't rely on pets with special abilities to get them for you. Such as the Red Fox, which can duplicate certain seeds from other players' gardens. Similarly, Dogs who can dig up random seeds won't dig up event seeds. If you spend Robux to buy an Exotic Summer Seed Pack, here are the chances for every seed you can get: Wild Carrot - 39% Pear - 25% Cantaloupe - 20% Parasol Flower - 10% Rosy Delight - 4.5% Elephant Ears - 0.5% Rainbow Sack - 1%If you end up getting the Rainbow Sack, you have a chance to get one of the seeds available in the Exotic Summer Seed Pack. The chances of getting any of the above seeds in the Rainbow Sack are slightly different than the Exotic Summer Seed Pack, but for Parasol Flower, it remains the same. There is still just a 10% chance of it appearing. Is the Parasol Flower the new Candy Blossom? Find out in this guide which details this plant's obtainment and its profits, comparing it to the beloved Candy Blossom plant.Start playing Grow a Garden on Roblox. For more on the Summer Update, check out our Grow a Garden Tropical Plants guide. Or, maybe you'd like our Grow a Garden Best Seeds guide to learn which crops you should be investing in!Despite not being the rarest seed from the Summer Seed Packs, the Parasol Flower has the highest base value. But why? This is simply due to the Parasol Flower not being multiharvest. This means once you pluck it from the ground, it will stop growing, no longer develop mutations or value. So, to compensate for its short lifespan, its base value with no mutations sits at around 165,300 Sheckles! For comparison, a typical unmutated Candy Blossom is worth 90,250 Sheckles.So, the Parasol Flower massively outpaces the Candy Blossoms' base value. But, does this make it the new Candy Blossom? Hate To Say It But...Despite its insane value, it simply doesn't compare. Sure, it's worth more, but a single Candy Blossom tree produces several fruits compared to the singular, which is the Parasol Flower.Not only that, this flower is limited, and when it's gone, players will no longer be able to farm it for cash. Maybe if it were a permanent shop addition like the Bamboo, another single-use plant that's great for profits, then it'd outshine the Candy Blossom.If you're lucky enough to get a Parasol Flower, I recommend leaving it for as long as possible to develop as many mutations as possible. Even better if you have a Dragonfly or Butterfly pet, which can turn the flower into a Gold or Rainbow variant. WalkthroughsJune 3, 2025By Rachel Varnham WalkthroughsJune 4, 2025By Sho Roberts
