**The New Warhammer 40,000  
Your Questions Answered!**

So, a new 40K, eh?

That's right! This is an exciting time for Warhammer 40,000 fans. There's a new edition on the way with updates and refinements to the core rules of the game, not to mention exciting developments in the ongoing narrative of the 41st Millennium. And, of course, loads of amazing new Citadel miniatures.

If you're already a fan, you have some awesome stuff to look forward to. If you're just taking your first steps into Warhammer 40,000, you picked a great time to start!

**Why have you done another edition of the game?**

We are always looking to make our games the best they can be. The last edition of Warhammer 40,000 saw a new game, rebuilt from the ground up. This edition is an evolution of that revolutionary design, taking on board three years of player feedback and making this incarnation of the game the best edition yet. As well as that, we've taken the opportunity to explore more of the changing face of the galaxy and introduce some exciting developments to the narrative of Warhammer 40,000.

### What's changed in the rules?

Loads! A new edition gives us a chance to look again at the core rules of Warhammer 40,000 and make changes to the underlying engine. We've looked at every phase in the game, as well as missions, points and Stratagems. You'll see changes that affect every army and every game.

We'll be exploring many of these changes in detail over the coming weeks in articles over on [warhammer-community.com](http://warhammer-community.com)

Has the setting or lore changed?

The past three years have already seen some huge changes to the shape of the galaxy that have literally redrawn the map. This new edition will see some equally seismic developments as we explore more of the galaxy, and rising threats to the Imperium...

### Will there be new models?

Heck yes! So many cool new models, Necrons, in particular, are in for a good year ... and that's only the start.

Wait one second! Is that a new logo?

Good spot! Ain't it cool!? We're sorry if it invalidates your tattoo. On the other hand, congratulations! Now it's vintage body art.

### Can I still use my army?

You betcha. Your current army will still be usable in the new edition of Warhammer 40,000. Of course, as we mentioned above, there are loads of cool changes to the rules, so a whole raft of new tactical challenges and opportunities await!

**How can I get the rules?**

We're going to make it easy to get your hands on the new rules and start playing. The core rules for the game will be free, and you'll have several options on how you get your hands on the full rulebook.

For more information, sign up to our countdown newsletter.

### What happens to my codexes?

Good news! All your codexes still work! As do campaign expansions like the *Vigilus* series, *Psychic Awakening* and *White Dwarf Supplements*.

**What about the Psychic Awakening books?**

Again – these all still work! The rules in these supplements were written with the new edition in mind, so you can continue to use the rules in them for your games.

### What about my Forge World Index books?

These will be changing

Look out for a new range of books to support the Warhammer 40,000 Forge World offer soon after the release of the new edition.

**Will there be new codexes for this edition too?**

Yes, each of the factions in Warhammer 40,000 will be revisited in turn with codexes. This next wave of codexes will have additional content that features the new edition's updated rules, such as the new Crusade system.

**Are unit points going to change?**

Yes. A new edition gives us an opportunity to reset the balance of power across the whole game. Expect to see a lot of points changes in armies. Some for balance purposes and some to reflect the increased efficacy of units that become more powerful with the changes to core rules.

### What's this we're hearing about Crusade?

We're glad you asked, because we're proper excited about it. Crusade is a new system for narrative play that will allow you to interact with your Warhammer 40,000 collection in a deeper, more meaningful way.

If you love the lore of Warhammer 40,000, narrative in your games, campaigns, meaningful battles, and collecting an army to a theme – you're going to love Crusade.

Nice website!

Thanks for noticing. Yes, there is a new Warhammer 40,000

You suddenly begin to sweat more than usual. Sensation of light-headedness or feeling faint; Causes of Dizziness. Main Cause. Usually due to reduced blood flow to the brain for a short time. It can be triggered by many normal events; Standing too long in one place. Reason: This causes pooling of blood in the legs. Standing up suddenly. Reason: This causes sudden drop in blood pressure. shaking/ racing heart beat. grizzly111 posted: I'm 33wks and on and off for over a week or so Ive been feeling like my hearts about to pound out of my chest. I'm just sitting here at my desk at work, NOT overexerting myself and feel like Im I just ran a race because my hearts beating so fast. Last night my DS woke me up to go to the bathroom and. Also, Heat exhaustion causes intense thirst, heavy sweating, pale, cool, and moist skin, muscle cramps, and more. High blood pressure, often asymptomatic, can cause headaches, shortness of breath, nosebleeds, and anxiety. An insulin reaction is the result of low blood sugar and causes anxiety, hunger, shaking, dizziness, and more. Vitreous Floaters. I feel faint and dizzy Fainting or feeling light-headed may be a sign that you haven't eaten enough that day. But it could also mean that you have low blood pressure, which is common in early pregnancy (Marks 2019, Stöppler nd). That's because the pregnancy hormone progesterone relaxes the walls of your blood vessels. 7. 12. · Fainting ( syncope) happens when you don't get enough oxygen to your brain. Cold sweats can occur right before or after you pass out. Fainting because of brain oxygen loss can happen for a. In the normal state, the adult is determined from 60 to 90 beats per. Feeling sick after eating sugar is a sign that you have an underlying. Welcome to Warhammer 40k - Lexicanum! Log in and join the community. From Warhammer 40k - Lexicanum This is a list of sentient species known to exist (or have existed) within the galaxy and beyond. Note that the use of 'species' is much broader than the dictionary definition. In this article, 'species' distinction includes lesser definitions, such as sub-species. Eldar species Human species Abhuman species Necron forces Necron False Necrons Necrontyr Necron. Pariah C'tan Orkoid species Orkoid species Orks Brain Boyz Gretchin (Grots) Prime Ork Snottlings Tau Empire species Tyranid species Tyranid species Tyranid Genestealers Zoat Warp entities Warp entities Daemons Enslaver Vampires Other species Unnamed Species Unnamed Xenos Sentient Species Place of Encounter Time of Encounter Description of Xeno Species Forces of the Imperium Outcome of Encounter Source Torben's World Unknown but before the Great Crusade or in time of it The Xenos species had developed primitive firearms Human colonists The colonists use of Rhinos led to the Xenos species destruction. This was the first documented military use of the Rhino. Imperial Armour Volume Two - Space Marines and Forces of the Inquisition, pg. 13 Tranquillity Great Crusade Each xenos of this race existed in the form of a many pronged star of transparent crystal, that moved by a strange process of expansion and contraction of its shape and mass. Unbelievably fast, each xenomorph was able to project an energy beam capable of cutting through ceramite, flesh and bone. The race possessed starships and emerged through the nearest Warp Gate. Emperor's Children The Emperor's Children first destroyed the Xenos army and then their fleet of starships. Then the Legion passed through the Xenos' Warp Gate and destroyed their Homeworld, later returning to Tranquillity in triumph. Ironically, the Warp Gate leading to the Xenos' System later became utterly inert, so if they had not launched their invasion, the Xenos could possibly have still existed somewhere in the Galaxy. The Horus Heresy Book One - Betrayal, pg. 116 Oura'Nuoama Great Crusade The Xenos had gossamer wings, with flute-like mouths and dwelled within palaces of frosted glass, on their highly toxic world. Their weaponry included guns, particle-beams, atmospheric ships and heavy armor. Death Guard, Blood Angels, Imperial Knights The Xenos species was destroyed by an Imperial strike force led by the Death Guard Primarch Mortarion. Afterwards their toxic world was terraformed by the Imperium, so that Humans could live upon it. Unification (Short Story) Tyrana Secundus 964.M41 Underwater race that lived in cyclopean fane-cities beneath Tyrama's dark oceans. They began enslaving the world's Human population, dragging millions to a watery demise. Ordo Xenos Inquisitor Gruberman, Deathwatch and Subjugators Chapter. The Xenos species was destroyed during the Tyrana Secundus Campaign Imperial Armour Volume Two - Second Edition, pg. 22 Unknown 932.M39 Endoparasitical Xenos that spawned within the skull of General Kazanlak and took control of him. It then commanded his Imperial Guard forces to start a rebellion against the Imperium. Task Force Naasirka of the Praetors of Orpheus Chapter Both Kazanlak and the Xenos parasite inside of him were killed, during the Jotun Repression. This has been the only specimen of this species found so far. Imperial Armour Volume Two - Second Edition, pg. 19 Trailing Marches of the Eurydice Sector Unknown Strange flying creatures that lived in the nesting-crypts and attacked the Imperial frontier worlds. Iron Lords Though the Space Marines that went to destroy the miasmic nesting canals of the xenos cities never returned, flying adult forms repeatedly attacked the landing site of the Chapter and were destroyed by the Iron Lords' Hyperios missile launchers. After the battle, this species never disturbed the Imperium again leading scholars to believe that all of the Xenos' adult forms were killed and its young larva could not survive without their help. Imperial Armour Volume Two - Second Edition, pg. 200 Precipice Unknown Xenos species unknown to the Imperium, who are rumored to have created the Space Station Precipice. However they disappeared long before the Station was found abandoned in M42.
